MICROSURGICAL KNIVES

Precision, Quality *and* Performance

Clinicians know that minimizing risks and providing positive patient outcomes are the most important issues to consider when choosing the right surgical instruments. Unique Technologies offers a line of UniqueEdge[®] knives that consistently provide both the quality and precision necessary to achieve these goals.

PRECISION YOU CAN SEE

- Our vacuum-purified double melt, hardened and tempered stainless steel technology produces a uniform strength and ductility that is critical to creating our precise cutting edge for smooth, uniform incisions
- Consistent blade dimensions
- Flawless cutting edge
- Superior wound architecture
- Minimal wound leakage

TEXTURED HANDLE

- Market proven design
- Enhanced instrument control
- Excellent tactile response

MATTE FINISHED BLADE

- Improves view of the operating field
- Eliminates reflective glare from operating room light sources
- Maximal visibility of the knife within the eye chamber

QUALITY YOU CAN FEEL

- Effortless tissue penetration
- Excellent tactile response with minimal drag
- Consistent reproducible incisions

PERFORMANCE YOU CAN TRUST

- Accurate, well controlled incisions
- Tightly sealing incisions
- Sutureless closure
- Rapid wound healing
- Reduced potential for infection
